

Cookie Policy

What are Cookies?

Cookies are small text files containing a string of characters that can be placed on your computer or mobile device that uniquely identify your browser or device.

What are cookies used for?

Cookies allow a site or services to know if your computer or device has visited that site or service before. Cookies can then be used to help understand how the site or service is being used, help you navigate between pages efficiently, help remember your preferences, and generally improve your browsing experience. Cookies can also help ensure marketing you see online is more relevant to you and your interests.

What types of cookies does DragSwag use?

There are two categories of cookies that DragSwag uses: “Strictly Necessary” and “Performance”. You can find out more about each cookie category below.

1. **Strictly Necessary Cookies.** These cookies are essential, as they enable you to move around the Service and use its features, such as accessing logged in or secure areas.
2. **Performance Cookies.** These cookies collect information about how you have used the Service, for example, information related to the unique username you have provided, so that less strain is placed on our backend infrastructure. These cookies may also be used to allow us to know that you have logged in so that we can serve you fresher content than a user who has never logged in. We also use cookies to track aggregate Service usage and experiment with new features and changes on the Service. The information collected is used to improve how the Service works.

What DragSwag cookies are not?

The cookies we use do not track information on your computer, your browsing habits outside of the DragSwag website, or personal information. Our cookies are generally an alphanumeric string only used to determine browsing preferences or user information while on our website. *Example: 8e4b65ef0c647ce8955g74*
